Carrer Objective :

Software developer who is meticulous and focuses on data analysis, cloud computing, web and application development. In order to properly contribute to dynamic projects, I am now extending my experience in cloud platforms, cybersecurity, and the MERN stack. committed to providing excellent solutions while advancing knowledge and stimulating creativity in a team setting. Specializing in cybersecurity, improving system security, and safeguarding data integrity are future objectives.

Future Goal :

Aspiring to specialize in cybersecurity to enhance system security, protect data integrity, and contribute to building secure digital infrastructures.

Education :

- ❖ PES University, Bangalore (2022 – Present) - **Current CGPA (upto 4th sem) – 7.35**
- ❖ Sri Chaitanya Marathalli, Bangalore (2020 – 2022) - **CBSE 12th Board – 84%**
- ❖ Kendriya Vidyalaya NAL, Bangalore (2010 – 2020) - **CBSE 10th Board – 81%**

Technical Skills :

- ❖ MERN Full Stack Developer (Frontend & Backend)
- ❖ Programming Languages : C, Java, Python, Javascript
- ❖ Web Developing Framework : React JS, Struts 2
- ❖ Python App development
- ❖ DBMS : MySQL, SQLite, MongoDB
- ❖ Data Structure and Algorithm
- ❖ Computer networking

Major Projects Worked (Github : github.com/kpajval):

- ❖ **Portfolio Website (using React.Js) :** Crafted a dynamic portfolio website using React.js to showcase skills, projects, and achievements in an interactive and engaging manner. (Not Hosted)
- ❖ **Desktop Assistant (using Python) :** Developed a desktop assistant application using Python to automate tasks, provide information, and enhance productivity with customizable features.
- ❖ **CloudShare (using Python):** CloudShare is a project designed to facilitate seamless file management and collaboration between multiple users. Utilizing a server-client architecture, it allows users to upload, download, and view files stored on a central server from their own computers. Whether sharing documents, images, or other data, CloudShare provides a secure and efficient platform for collaborative file sharing and management.

Leadership and Event Management Experience :

- ❖ Design Head in CodeChef Club
- ❖ Organised College Hackathon – Clash of Code, Capture the Bug

Job Experience :

❖ Internship at URSC-ISRO, Bangalore

Duration: 45 days (From : 27th may 2024 To : 10th July 2024)

- Worked on Web Technologies using the Struts 2 Framework, Java, and MySQL.
- Developed a real-time project focused on managing an Employee Data Page.
- Collected and analyzed data on various employee-related measures.
- Gained hands-on experience in backend and frontend development within a structured project environment.
